NUMBER 21

## B. OF T. STARTS PUBLICITY CAMPAIGN

The directors of the Board of Trade combined pleasure with business Tuesday evening when they were the guests of President T. W. Hanson at a dinner at the Douglas hotel at Lovell.

The calls on the Board of Trade are many and there is need of strenuous work here this summer. Literally millions of people are coming to Michigan for their summer outing and it is up to Crawford county to cash in on this gold mine while the getting is good. Almost every community has something to offer and is hollering about it big and loud.

The Board of Trade is limited for resources and isn't able to spend \$500 for a summer advertising campaign. They need help. In the mean time the advertising committee is going ahead with plans that will mean the expenditure of a lot of money and expect that those who are to be benefited are going to help pay the cost. In fact the public will have the easiest part of it—pay the cost.

Mrs. Douglas served a fine dinner as usual and Mr. Hanson and his guests did it ample justice. Thirteen sat down to the table. Besides the ten members of the board of directors there were three guests—present—T. F. Marston, secretary, and his assistant Joe Dermody of the East Michigan Tourist association, and Mr. Pearsall, all of Bay City.

The topic of discussion was advertising Crawford county. Everybody entered into the discussion and many excellent suggestions were offered. All agreed that quick action was very important. Already inquiries are coming in by the score and printed matter is needed in order to answer them.

Mr. Dermody stated that never before had the Tourist association received so many inquiries this early in the season as it has already received this year. He says that the tourist business in Michigan was going to far exceed last year's high mark. "The people are coming and it will be up to us to show them what we have got and how to get here, and then treat them with the utmost courtesy."

It means extra millions of dollars for the people of Michigan. The Tourist association thru its office in Bay City has been doing great work in spreading the story of Michigan thru the Central states and now the people of those commonwealths are knocking at our doors for admittance. Michigan has what they want in summer and they are coming here for their summer outings.

Mr. Marston had already visited some of the lodges on the AuSable river and had some knowledge of their magnitude. Mr. Dermody had never had that pleasure, therefore Mr. Hanson took him and Mr. Marston to the Lovells meeting via a long way around. They started immediately on the arrival of the afternoon train from the south and visited a few of the cabins and lodges on the main stream of the AuSable. Others in the party were Fred Welch and T. P. Peterson. The trip was an eye opener to Mr. Dermody. The beauty of the river and the many fine homes and lodges were a revelation to him. Cottages ranging from the more humble ones costing a few hundred dollars to some that cost more than a hundred thousand dollars dot the banks of these famous rivers—the Main stream, the North Branch, the South Branch and the Big Mani-tee.

Only a few of these places could be seen in the short period of an afternoon. Both Mr. Marston and Mr. Dermody agreed that Crawford county had more to offer tourists than any other one county in the state.

The individual or the family seeking to present complete annual reports where they may be quite alone can find it here. Those seeking adventure amidst the wildernesses, on lakes and streams will find what is to their liking in abundance. Nature never smiled any more favorably upon any region than it did on Crawford county, where its magnificent streams wind their devious ways thru the wild woods, thru valleys and fowl morasses, where game birds and song birds carol their festal songs, where the deer and bear love to play and hide. Streams where the gamiest fish that ever swam the waters of any river take the fisherman's fly. Lakes in which abound the game black bass and pike and others of the finny tribe. It's all here and we have but to let the people know and they will select Crawford county for their play ground when they come to our beautiful Michigan. Pictures that excel in beauty the artist's brush await those who glide down the swift waters of our several major streams.

The advertising committee of the Board of Trade hope to present the story of Crawford county in picture and text for the enlightenment of those who would know where to spend their summer outing. This committee is going to need a lot of help for it takes money to put this over. Subscriptions from any source will be most welcome. Checks mailed to A. J. Joseph, secretary, will find their way into the advertising fund that will have to be raised for this publicity, and they will be most welcome. The SOS call is out for funds. Every resort owner, every lodge owner and every property owner in the resort region—hotels, cottages, and other business firms may well afford to assist in this expense. The contributions should be liberal and given freely. It is a work for all and the members of the publicity committee hope the responses will be generous and that they will come in early. \$500 is needed right away.

1-R-100, the huge new English dirigible, as it will appear when completed and ready to fly to the United States in June. 2-American War mothers, many of them old Star mothers, placing wreaths on the tomb of the Unknown Soldier in Arlington National cemetery while Sergeant Witley sounded taps. 3-Christopher Columbus monument, designed and donated by Mrs. Harry Payne Whitney, unveiled in Madrid, Spain.

## BABBITT ENJOYS BIRTHDAY PARTY

A birthday party, such as would be most welcome by anyone, was the pleasure of our esteemed citizen Reuben S. Babbitt last week Friday. He was 70 years old on Thursday and on the following day Mr. Babbitt returned home from the trout streams to find Mr. Mark M. Sibley and his sister Miss Sibley of Detroit awaiting him. There they presented him with a huge birthday cake.

After a short visit the guests requested Mr. Babbitt to go with them to the Avalanch office where they desired to take some pictures. One of the pictures showed Mr. Sibley presenting Mr. Babbitt with a package that contained a purse of several hundred dollars and the following letter:

To Reuben S. Babbitt:  
The undersigned, your loyal friends and well-wishers, greet you on your seventieth birthday and join in this little gift to you as a token of our affection and esteem. We know you for a square sport and a straight man, and we hope that you live to be a hundred years old, in good health all the way.

Sidney T. Miller,  
Dr. C. G. Jennings,  
John T. Nichols,  
Ben S. Warren,  
Fred T. Murphy,  
William E. Rice,  
John M. Dwyer,  
Charles L. Smith,  
James H. Plinn,  
William P. Stevens,  
Frederic G. Austin,  
Harry W. Potter,  
Charles M. Swift,  
Charles P. Spicer,  
William E. Bee,  
J. B. Webber,  
J. L. Webber,  
George O. Begg,  
John N. Donaldson,  
Peter J. Monaghan,  
C. H. L'Hommedieu,  
George B. Russell,  
Sidney T. Miller, Jr.,  
Alexander H. Sibley,  
William G. Carpenter,  
Ed. S. Barber,  
Mark M. Sibley.

Mr. Babbitt says it was one of the biggest surprises of his lifetime. He stated that his family had never paid any special attention to birthdays and that this was the first birthday party he had ever had. He was deeply grateful to his friends and still more appreciative of their esteem and friendship.

The list contains the names of some of the most prominent citizens of Detroit, some of whom Mr. Babbitt had guided on the rivers and hunting grounds many years ago. He says he recalls well that he was on the streams with Mr. Sidney T. Miller on the day that President Garfield was assassinated—July 2, 1881. That was a long time ago. And down thru all the following years he has increased his circle of friends until now he is known to sportsmen in almost every state in the union. Many of these old friends have gone but still there seems to be literally thousands who still remember him and by whom he is held in the high esteem that is manifest by his Detroit friends. And right here at home where he is intimately known, Mr. Babbitt's friends are those who know him. Besides being the highest type of sportsman he is also a splendid citizen. We are sure the high tribute paid him by his Detroit friends is shared by the men and women and the boys and girls of Grayling.

## School Notes

(Written by the students of the English classes.)  
Grayling High School won their second game in two days and their fourth straight of the season as they swept aside the Rosemount High School by the score of 12-2. The day before Grayling took a hard-fought battle from Gaylord 4-2. It was the waver around a soldier who was best game of the year only one or two caught without employment in the economic reconstruction following the World War. The effects this soldier had on the domestic tranquility of the returned soldier Clarence had an important bearing on every member of the home. The big question of this plot is who is Clarence? Why is he here? What does he want?

Thursday's game with Rosemount was a mound duel between Schmidt and Andrews. The local team could not get at Andrews for any run until the third inning and then they collected two runs for Schmidt to work on. In the fifth they added one more and in the eighth scored again to put the game on ice. Base hits were few and far between in this game.

The next game scheduled is with West Branch High School here Friday. The biggest and most stupendous treat of this evening happens when the second curtain falls and the other curtain rises, in other words the class will graduate, they are very good looking and attractive. The country lads will be in town for the kings are being bought, through the evening and will then favor us with local jewelry, Carl Peterson and the few special singing numbers. The service is remarkable to last year's only being impersonators of the "Two service." A class meeting was held, Black Eyes. The best ever seen on Monday and all business was done at this side of the Atlantic.

The Junior class gave the assembly a treat on Wednesday. It was a Memorial Day program. Details of the program will appear in next week's notes. Don't forget the play "Clarence" tomorrow night at 8:00-25c and 40c. Reserve seats at Central Drug Store.

Mr. Smith the piano tuner, had quite a large audience last Friday afternoon when he was trying out the school piano after he had tuned it. Everyone was well pleased with his year show a total of 309 fires, and 5830 acres burnt over. This is considerably below the area burnt during a similar period in 1928. Up to the present time the average per fire has been 13 acres. The fire season of 1928 with a total of 1394 fires showed an average burnt area of 35 acres for each fire.

The English Literature classes enjoyed (???) a test over the life and works of Dickens last Thursday. The seventh and eighth grade state crown 200 feet high, is first suicide at that spot.—New York Times.

## SENIOR PLAY "CLARENCE"

FRIDAY, MAY 24  
The story of "Clarence" is a plot laid in the home of a millionaire. It is a comedy-drama displaying domestic strife of the same. The story is a battle from Gaylord 4-2. It was the waver around a soldier who was best game of the year only one or two caught without employment in the economic reconstruction following the World War. The effects this soldier had on the domestic tranquility of the returned soldier Clarence had an important bearing on every member of the home. The big question of this plot is who is Clarence? Why is he here? What does he want?

Mr. Wheeler... Charles Wylie  
Mrs. Wheeler... Laura Knibbs  
Bob Wheeler... Stanley Stephan  
Cora Wheeler... Ellen Gotthard  
Miss Pinney... Alva Stephan  
Miss Sten... Pauline Lietz  
Mrs. Martyn... Lewis Engel  
Dinwiddie... Lewis Konvicka  
Dolla... Lillian Swanson

Stop! Look! Listen! Something extraordinary is in the line of entertainment. The biggest and most stupendous treat of this evening happens when the second curtain falls and the other curtain rises, in other words the class will graduate, they are very good looking and attractive. The country lads will be in town for the kings are being bought, through the evening and will then favor us with local jewelry, Carl Peterson and the few special singing numbers. The service is remarkable to last year's only being impersonators of the "Two service." A class meeting was held, Black Eyes. The best ever seen on Monday and all business was done at this side of the Atlantic.

The Junior class gave the assembly a treat on Wednesday. It was a Memorial Day program. Details of the program will appear in next week's notes. Don't forget the play "Clarence" tomorrow night at 8:00-25c and 40c. Reserve seats at Central Drug Store.

## FREDERIC COMMENCEMENT EXERCISES NEXT WEEK

Rev. Greenwood To Give Commencement Address; Rev. Earle Baccalaureate  
The Commencement address for Frederic will be given in the school auditorium by Rev. J. W. Greenwood of the Grayling M. E. church Wednesday evening, May 29th.

Mr. Greenwood has acted in this capacity for different high schools and has always been very successful. It is well known in this community that he is an orator of no mean ability; and the excellent thoughts that he presents will be inspiring and helpful to all.

Again, we should have a reasonably large representation from Grayling as well as from other surrounding townships. A large crowd makes the speaker enthusiastic, and we owe it to him and to Frederic. When a decisive basketball game is played, the towns that the players represent are usually well represented. This is as it should be, but the literary as well as the physical side of our education should be of interest to the people.

Baccalaureate  
The Baccalaureate address for the seniors of the Frederic schools, and for the community of Crawford county, will be delivered Sunday evening, May 26, 1929, by Rev. D. N. Backus in the Methodist Protestant church of Frederic.

This is the only address of this kind that will ever be delivered to the seniors during their high school days; and for this reason the citizens of the different communities of Crawford county owe them their attendance. Let it not be merely a turning out of the neighbors, and a few of the close friends of the seniors in Frederic and other places, but let the people in the other townships of Crawford county come with their presence and remind our graduating class that they are interested in them. We should fill the church to its capacity in order to elevate instead of lowering the moral and spiritual courage of our young people.

There will be dancing at The Music Box on Wednesday, Friday and Saturday nights during the month of June, and every night except Mondays and Thursdays during the months of July and August. As before there will be a tea room in connection. This place too has taken new form and will be sure to meet the approval of those who patronize the place. Everything is delightfully clean and attractive and the food will be relishing and appetizing. The big opening will be Decoration Day night. Dancing will start at 9:30—park plan.

At Capone jailed for a year; arrested for carrying gun; "Czar" of Chicago gangs sent to prison by Philadelphia court; he tells of gang's peace pact signed at Atlantic City. Philadelphia Inquirer.

ROSE CITY TO HAVE TOURIST PARK  
(By E. M. T. Service)  
Rose City, in Ogemaw County, is planning to maintain an up-to-date tourist park. The park has been donated to the city by Harry M. Jewett. An arch will be erected at the entrance to the grounds and materials and labor are being donated by the residents of the city. It is Mr. Jewett's idea to make the park a community project, rather than a city project.

## MUSIC BOX OPENS DECORATION DAY

FORMERLY COLLENS PAVILION NOW A CHARMING PLACE  
These who sometimes indulge in the social diversion of dancing will be delighted with the news that The Music Box at Lake Margate is to open its doors Decoration day.

For many years known as Colleen's Pavilion it has taken on a new name and is under new management and has undergone the most drastic re-juvenation. The grounds have been improved and parking places provided for guests.

Inside the pavilion has been redecorated and is now as charming a dance pavilion as may be found in Northern Michigan. Manager Clarence Johnson says it is not the largest dance pavilion in the north but it is the "Snappiest Pavilion in the North."

The engagement of Don Cox's orchestra of Flint is another big hit for the Teacups are the favorite of our education should be of interest to the people.

There will be dancing at The Music Box on Wednesday, Friday and Saturday nights during the month of June, and every night except Mondays and Thursdays during the months of July and August. **EDITORIAL PARAGRAPHS**

We don't believe there will be any revolution in Germany soon, especially in view of the fact that the government has decided not to raise the tax on beer.

Health experts say that it is not good for one to "sleep like a log." But in these modern nights of honking horns, clanging cars and late jazz programs on the radio, it's impossible to do it anyhow.

One of the happiest fellows we know is a man who went stone deaf after he had married one of those women who just love to talk.

A London woman who passed as a man was given nine months in jail recently. We know some fellows who pass as men and get away with it.

It would be simpler if Mexico set aside part of the country for revolutions and the rest for business.

Since the melodrama went out of vogue a lot of villains escape punishment—Toledo Blade.

Einstein, who knows so much about space, might devote a little of his time to finding some of it for parking—Fort Worth Star-Telegram.

The champion in self-control is the man who laughs at his own jokes when some friends tell them to him.

Students war on Des Moines University official, Dr. T. T. Shelders, who ousted faculty members; school closed riots, reopened by court order; Baptists stand firm in fundamentalist belief—Des Moines Register.

**"OUR GANG" SEWING CLUB**

Our scribe hasn't been on the job for several weeks so we are giving an account of "Our Gang" sewing club for their last four meetings. On April 18 a large number of ladies met at Mrs. Russell Valiada's and made quilt-blocks. Mrs. John Wakeley received a bouquet of flowers for her birthday. There was a delicious lunch served and Mrs. Albert Knibbs won the penny prize. On April 25th Mrs. Geo. Clise had "The Gang" in for Mrs. Barton Wakeley who was honored with a miscellaneous shower. Mrs. Carl Larson received the penny prize. They sewed quilt-blocks and had a fine lunch.

"The Gang" went over to Mrs. Carl Larson's on May 6th. The ladies played games and had their pictures "took." Several quilt-blocks were turned in. Mrs. John Erkes won the penny prize and Mrs. Jessie Babbitt a bouquet of flowers, it being her birthday.

On May 10th we all took courage "snow or no snow" and went down the river to Mrs. Rudolph Feldhausen's, where we had a grand and glorious time (if we did nearly freeze getting there.) Games were enjoyed and good eats and went home tired but happy.

## Local Happenings

Mrs. Peter McNeven of Bay City is in the city and while here sold their home to County Clerk Chas. Gierke.

Attend the Senior play "Clarence" at the School auditorium Friday evening, May 24. Admission 40 and 25c.

Memorial day will be observed by Grayling Post 106 as usual. As yet the program service is not complete.

Mr. and Mrs. Henry Black and children of Traverse City are visiting the former's sister Mrs. Dan Woods and family.

Mr. and Mrs. Roy Milnes and daughter Jane and the former's mother Mrs. O. Milnes visited relatives in Clare last Sunday.

Miss Margaret Montour left Tuesday night to spend a week in Ann Arbor visiting her sisters, Misses Fedora and Genevieve.

Mr. and Mrs. David Montour and Mr. and Mrs. Carl Nelson and son Carl Henry spent the week end in Standish and Pinconning.

The ladies of the L.D.S. church are holding a bake sale next Saturday, May 25th at the Grayling Hardware. Sale starts at 11:00 o'clock.

Earl Kolven has returned from Detroit and expects to remain here. Laudy Harrison who accompanied him returned after spending the week end.

Miss Margaret Weiss returned home Wednesday from a two week's visit in Flint. She has resigned her position at the local telephone exchange.

Mrs. Henry Trudo of Midland is spending a couple of weeks here visiting her parents, Mr. and Mrs. P. L. Brown. Mr. Trudo spent the week end here.

Miss Mildred Smith of Saginaw was a guest of Miss Ruth McNeven over the week end, having accompanied Miss Margaret Jensen here, who visited at the Adler Jorgensen home.

Next week is the week that poppies will be sold by the ladies of the American Legion Auxiliary. Remember, "On Flanders Field the poppies blow, between the crosses, row on row."

The Fellowship team of Grayling Lodge P. & A. M. were in Roscommon last Friday night, where they put on the work in the third degree, following which they enjoyed a fine banquet.

The county school examinations held Thursday and Friday of last week had but few writers. Only 12 took the eighth examination and 27 took the seventh grade. No pupils of Grayling school took either examination.

Henry Baumgardner of Lansing, superintendent at the Military Reservation, underwent an operation at Mercy Hospital yesterday morning. Mr. Baumgardner has hosts of friends in Grayling who wish him a complete and speedy recovery.

Mrs. W. D. Green, who has been a patient at Mercy Hospital was taken to Harbor Springs Sunday accompanied by her daughter Mrs. Chris Staley. Mrs. Green is in a serious condition having been ill for some time. Mr. Green accompanied them.

Now is the time to get that flag to be placed in front of your business place or home on days when the national colors are displayed. We have a limited number on hand at present so get your order in early. The cost is \$4.85 installed. See any member of Grayling Post.

Miss Fern Armstrong returned home Friday from Detroit after a three week's visit and has resumed her duties at the Grayling Mercantile store. Miss Armstrong was accompanied by her cousin Mrs. C. M. Church and little daughter of Detroit, who expect to remain for the summer.

Grayling Bakery will take their first truck load of bread and other baked goods to Gaylord this week, where Mr. Craig has secured the P. O. Rockwell meat market to handle his baked goods. Everything is so wholesome that it is turned out at the local bakery that we are sure the people of Gaylord will deem it a treat to be able to get Grayling baked goods.

Mrs. W. J. Nadeau was honored by her friends with a delightful party last Monday evening, her little son Jimmy Nadeau who was really the guest of honor being showered with many pretty gifts. Bridge and "500" were enjoyed. Mrs. Ernest Borchers and Mrs. Louis Kessler holding the high scores for the games. The affair was carried out in a color scheme of baby blue.

Grayling High-school baseball team added two more victories to their already perfect record last week by nosing out Gaylord at that place last Thursday afternoon by a 4 to 2 score. Schmidt on the mound for Grayling pitched a fine brand of ball and had the Pinnacle City boys guessing all the time. Andrews, who pitched for Gaylord allowed but few hits and also made a fine record for himself. Both pitchers had fine support from their team mates. On Friday afternoon Grayling played Roscommon here, the locals piling up 19 scores to Roscommon's 2. Sheehy and Loskos were the battery for Grayling and Emery and Cunniff for the visitors. Daugherty relieving Emery in the fifth inning. This week Friday West Branch High school will be here for a game and from reports the visitors have a strong team. This will no doubt be a good game and should the locals win it will bring them in line for the northern Michigan championship. The game will be called at 3:00 o'clock sharp.

Mrs. Thomas Cassidy was in Midland last week in attendance at the Federation of Women's clubs of the Northeastern district. Mrs. Cassidy was a delegate from the local Woman's club.

Doug, Olen and son Imph and Oscar Deckrow of Flint were in Grayling over Sunday coming to visit the latter's mother Mrs. Nancy Deckrow, who is ill. Mr. Oaks is a brother of Mrs. Deckrow and the family were former residents of Grayling.

Francis Brady had the misfortune to badly sprain an ankle Tuesday evening. With others he was playing ball on the pavement and tripped on a block of cement. Francis is a senior in school and the first baseman on the H. S. baseball team where his assistance is going to be greatly missed. It will put him out of the game for the remainder of the season.

Frank Millikin says he is having fine success with his Sano septic tanks. He has secured the right to manufacture and install these in Crawford county. They are claimed to be the last word in septic tanks. They are the only thing for places that have no sewer connection. Once installed they require no further attention and are guaranteed for five years but really last almost indefinitely.

T. E. Douglas got the contract for construction of the county garage. His bid was \$4,800. Other bidders were Herbert Walther, Roscommon, \$4,826.25; W. H. Ketzbeck, Grayling, \$5,700; N. M. Marsh and Signe T. Soderholm, Roscommon, \$6,268.50. The building is to be of rock-face concrete blocks. The location will be near the county infirmary. The order calls for completion July 1st. We understand that contracts will be let for a state garage soon. The site selected for that is near State street near the intersection of U. S. 27.

Rasmus Jorgenson, a resident of Grayling for many years passed away at his home Tuesday evening after a couple of days illness, having suffered a paralytic stroke Sunday. More particulars concerning Mr. Jorgenson will appear in our next issue. However the funeral will be held Friday afternoon with services in the Danish Lutheran church at 2:30 o'clock. Mr. and Mrs. Ralph Warner and little daughter, Benjie Jorgenson and Miss Helga of Detroit, Mr. and Mrs. Ernest Jorgenson of Pontiac, were all called here Sunday night by their father's illness.

The paving of Michigan avenue is just finished and now we are receiving a layer of concrete on U. S. 27. Huge power shovels and many trucks are busy removing dirt and wonderful progress is being made. Concrete is already being poured on the south end of the causeway. The contractor Alex Jeffry of Saginaw, has one of the most complete road building equipments in Michigan and we were fortunate when he took over the contract. The course leaves the old line just north of the last residence on McClellan street, near Mercy Hospital and follows a graceful curve to the west, then takes a straight line running east of the old factory building, striking the original trunk line at about the center of the Aviation field. This course cuts out several sharp curves and will greatly improve the line. Mr. Jeffry says he hopes to have the highway finished ready for use by July 4th.

Work on the pavement of Michigan avenue is all finished and looks like a fine job. It will take another week before it may be used. In the meantime it is littered with sand, gravel, blocks of cement, boards, and other debris, and the entrances are blocked to prevent vehicles driving on it. Fine gravel is used for filling the space between the pavement and curbing. This, it is claimed, will eventually pack down hard and smooth. Open spaces between the walks and curbing are being left open for the convenience of the Michigan Public Service Co., for laying their cables with that to provide juice for the boulevard lights. Twenty-eight lights will be placed on Michigan avenue which should make Grayling the best lighted city in the north. All electric poles have been removed from Michigan avenue which greatly improves its appearance. The telephone poles too will vanish just as soon as that company can get their new building on Cedar street finished.

**RIALTO THEATRE**

**NEXT WEEK**

SUN. MON. TUES.—The Bellamy Trial, a thrilling detective story. Talking.

WED. THURS. FRI.—Lights of New York. First 100% all talking picture. An all star cast featuring Mary Carr, Pauline Fredericks and Cullen Landis.

Also there will be added short subjects on each night.

**DIPPING INTO SCIENCE**

**Fountain of Water Spout**  
An unusual disturbance of the air at sea which causes the currents to form a whirling motion sometimes leaves an inner portion almost void of air. The proper contact of this hollow twisting column with the water may cause the water to be sucked up to fill the empty space. This forms the water spout.

## Nicholson Memorial Churrh

John Wilfred Greenwood, Minister

Sunday, May 26th, 1929

10:30 a. m. "The prayer of the Breadwinner."

7:30 p. m. A Memorial service in memory of the old Civil War veterans. Mr. Hiji will speak on "The Evil of Race Prejudice."

Upsetting the Apple-cart

In the Book of Matthew, there is a line of scripture comment which is very startling. It reads: "He upset the tables of the money changers."

No doubt the Master was at least tolerated up to that time. But when He deliberately laid hands on the cash register, there was bitter opposition. And the remarkable thing about it all, is that the situation doesn't change. Men, whose ethical standards are very much in question, tell us to preach the "simple" gospel. What they are really suggesting is, that they prefer religion that acts as an anaesthetic, rather than a religion which has in it the summons of a trumpet call to new ways of living.

It would seem that there is much in modern life which seeks to give a new commandment unto the modern prophet, and it reads something like this:

"A new commandment I give thee; Thou shalt not upset the apple cart."

They seek to tell us that prudence is the better part of valor. The motto hung out for our consideration is "Play it safe."

And yet in the light of this event in the life of this reckless Galilean Christ, we wonder what His message would be today. Would He upset the apple cart? Would anybody be mad after He preached His first sermon? Would He counsel prudence in the face of those forces which exploit human life?

The modern prophet wonders how true his message is to this Christ who dared turn things upside down? Is there anything in our community life that needs upsetting?

**TREES**

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

We were rushing along through the first semi-barren lands of Montana. Great stretches of prairie-land, gray with sage brush, spread out before

us. There was a green patch of fresh growing grain. The farmyards with the low two or three roomed dwelling houses stood bare and treeless under the burning sun.

There was an unobstructed view across the plain to the rocky buttes, along the horizon. To a middle-westerner used to trees and gardens gay with flowers it was a cheerless, almost depressing scene.

A man from Alaska was sitting across the aisle from me looking out gloomily upon the waste of bad lands. "They can have the whole 4-d place for all of me," he remarked to me finally. "I don't want none of it. I've got to have trees."

I had supposed, ignorantly, of course, never having been farther north than Prince Rupert, that gold and icebergs constituted the chief products of Alaska, but my neighbor assured me that there are all sorts of trees in Alaska. His statement made me want more than ever to go there. For, like him, I don't see quite how I could get on without trees. A house without trees about it stands out naked and unadorned, beaten by the winter winds and scorched by the burning sun of midsummer.

When we moved from a wooded farm to the prairies when I was seven, the first thing father did after the house was built was to surround the place with trees brought from the timber lands along the Vermilion—maples and quick growing poplars and cedars, which he kept trimmed into curious geometrical shapes. The place did not seem like home until there were trees about it. He liked them so well that he dropped seeds of the soft maple in the hedge rows about the farm, so that it was not long until there was a row of maples shooting up all along the roadway. We seemed safer; we were more contented, the place took on a greater air of comfort and homelikeness with the trees about.

When Nancy and I came to build our house there was a huge maple tree standing in the middle of the lot just where the house would naturally sit. We gazed at it towering up into the sky and the longer we looked the more impossible it seemed for us to snuff it. The house stands today farther back from the street than any other, and in front of it stands the old maple, like a guardian angel, its branches spreading out and furnishing cool shade during the hot summer.

"Why did you build your house so far back?" every one asked us. It was for the sake of the tree. It would have seemed sacrilege to have cut it down after it had been growing in strength and beauty for so many years.

There is a question that we have to settle now. We have so many trees that it is difficult to have flowers, for flowers must stand on sunshine. But I think the trees will stand and we shall be content with grass. The trees seem like old friends whom we cannot do without.

## NEWS REVIEW OF CURRENT EVENTS

**Explosions, Poison Gas and Fire Kill Scores in a Cleveland Hospital.**

By EDWARD W. PICKARD

ONE of the most terrible and distressing disasters of recent times occurred in Cleveland, Ohio, resulting in the deaths of at least 124 persons and the injury of many others. Fire of undetermined origin broke out in the Cleveland Clinic and soon reached a great quantity of X-ray films stored in the basement. These exploded, gave off deadly gases that spread through the four-story building. Patients, doctors and nurses were nearly all unable to make their way to the doors and windows, so swiftly did the fumes render them unconscious; and for a time up rescuers could enter the building unless equipped with gas masks. Even without the structure pedestrians passing at the time of the blasts fell to the ground overcome by the gas and could not be dragged to safety until it had lifted.

Most of the victims were killed by the gas fumes, according to the authorities. Among them were many well-known citizens of Cleveland and vicinity, and a number of nationally known physicians who were in attendance on patients. Members of the clinic staff were credited with the utmost valor in their efforts to save the patients, and many of them gave their lives. The police and firemen and numerous chance passersby were no less valiant. Dr. George W. Crile, noted surgeon, founder and chief owner of the clinic was foremost in the relief work. Fire Chief James P. Flynn was an outstanding hero. He had his men lower him time after time through the skylight on the roof and he brought out 10 living or dead.

Experts in Cleveland said the poisonous gases were due to the burning of X-ray film in large quantities. The photographic films, which have much the same composition as gun-cotton, exploded on coming in contact with the fumes, threw off three kinds of compounds. These were cyanuric, carbon monoxide, and the gas of nitric oxide or other nitrogen compounds. Inhalation of the carbon monoxide resulted in death similar to the breathing of exhaust gas from an automobile in a closed garage.

The senate passed the McNary farm relief bill, including the export debenture feature, by a vote of 54 to 33. Only two Democrats—Wagner of New York and Walsh of Massachusetts—were recorded in the negative. Twenty-one Republicans voted for the bill and 31 against it. The action of many of the latter was in protest against the debenture provision which President Hoover opposed. Leaders of the house at first were disposed to refuse to accept the senate measure on the ground that

the debenture clause was revenue legislation, which must originate in the lower house. Then it was decided to send the bill to conference and kill the objectionable feature there. A special rule was adopted, however, setting forth that the house stood on its rights and that its action in this particular case should not be considered a precedent. The rule carried a rebuke to the senate for invading the prerogatives of the house. All the house conferees and three of the five senate conferees were on record as opposed to the export debenture plan.

## Young People Will Be Young People

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

Youth has always taken chances wherever we find youth, and in the eyes of middle age has ever leaned toward unconventional. No one hates advice and regulation so much as young people; they are eager to go their own way, and possibly not more so today than they have previously been.

I am just reading Northanger Abbey, written one hundred and thirty years ago, so Miss Austen's biographer says. Isabella, a sensible girl, is turning to ignore the conventions of the time, was going off unchaperoned in an open carriage to drive fifteen miles or so with her brother John and Mr. Morland. It was as bad as if a pair of lovers today should park their car on a side road at midnight with the lights on. Catherine was discussing the matter with the Allens whose guest she was at Bath.

"Well," said Mr. Allen, "do you think of going too?"

"No, I had just engaged myself to walk with Miss Tilney before they told me of it; and therefore, you know, I could not go with them, could I?"

"No, certainly not," Mr. Allen replied, "and I am glad you do not think of it. These schemes are not at all the thing. Young men and young women driving about the country in open carriages! Now and then it is very well, but going to fairs and public places together! It is not right; and I wonder Mrs. Thorpe should allow it. I am glad you do not think of going; I am sure Mrs. Thorpe would not be pleased. Mr. Allen, are you of my thinking? Do not you think these kind of projects objectionable?"

"Yes, very much so, indeed. Open carriages are nasty things," Mrs. Allen replied, "thinking more of the clothes than of the awful propriety of which the wild young people were committing. 'A clean gown' is not a clean gown in them. You are splashed getting in and getting out, and the wind takes your hair and your bonnet in every direction. I hate an open carriage myself."

"I know you do, but that is not the question. Do not you think it has an odd appearance if young ladies are frequently driven about in them by young men to whom they are not even related?"

"Yes, my dear, a very odd appearance, indeed. I cannot bear to see it."

And then Mr. Allen, more polite than his wife, said, "but one must not be over particular. Young people will be young people as your good mother says herself—Young people are not like to be always thwarted."

No more do they today, any more than they did one hundred and thirty years ago when Jane Austen was a girl. Perhaps the best solution is not to take their irregularities too seriously but to be philosophical about it as Mr. Allen was. They are going to do quite as they please anyway in spite of our protests.

## JUMPY NERVES CAUSE ACCIDENTS

By Erwin Greer  
(President Greer School of Electrical & Automotive Trades, Chicago Ill.)

Contrast the comparative qualifications of the driver of an automobile and the driver of a locomotive. The former as a rule needs no qualifications other than his ability to possess a car. He is not only unfamiliar with its operation and mechanism, but is wholly lacking in a knowledge of our laws governing its use on the highways. In many instances his responsibilities are such that he is weakened in his regard for the rights of others, whereas the locomotive engineer has earned his right to a seat in the cab of his engine by virtue of many years of training.

Displays of unusual and unwarranted driving as a result of loss of temper are common. Even though he may not be conscious of it, the man who drives an automobile under the conditions of present-day traffic is under a nervous strain, and he may move along quite peacefully and composedly in all other activities, yet, when in the act of driving a car, may wear his nerves as a topcoat. The degree to which he becomes sensitive to his surroundings will depend upon what has happened or what does happen to him. If, upon arising in the morning, the furnace has failed to draw, the eggs have got cold, the coffee is too weak, a suit has not been returned from the cleaners; if, upon trying to start the car, the battery refuses to function, a tire is down, or the supply of gasoline exhausted; if, once upon the highway, the car is splashed with mud, misses and backfires, or is forced into a collision with some driver in a like frame of mind, these, or any one of them, may explain why he is jeopardizing the lives of pedestrians and making life miserable for others hastening to work. Under the influence of distraught temper men become unnatural; even some of the mildest have been known to resort to oaths they have never before employed or to assume an unrecognizable impatience and pugnacity, and, suiting the action to the words, step on the gas or jam on the brakes in a wholly unexpected manner.

Railroads can't afford to have locomotive engineers with jumpy nerves. Then why should motor car drivers with jumpy nerves be permitted to endanger the highway?

## Short Treatment Of New Medicine Ends Suffering

Grateful Man, Who Had Been Ill For Seven Years, Finds Powers Of Konjola

"Now I know why so many people call Konjola the 'master medicine,'" said Mr. Theo. Hahn, 500 Greenway street, west side, Saginaw. "I suffered for seven years from kidney and bladder troubles. There were awful pains in my back, and it was not unusual for me to have to arise 7 or 8 times every night due to bladder actions. I was as tired in the morning as when I went to bed at night."

"But things are different now," thanks to Konjola. By the time I had used four bottles my condition was as good as it ever was. My kidneys and bladder have been corrected. The back pains have vanished. I never have to get up at night any more. I enjoy sound, refreshing sleep every night, and wake up in the morning well rested. I owe all this new health to Konjola."

Konjola is sold in Grayling, Mich. at the Mac & Gidley drug store and by all the best druggists in all towns throughout this section.

Harry Sinclair will spend six months in confinement for believing his lawyers when they told him he didn't have to testify.

## GUILTY, BY HECK!

Among the wheezes whittled and the quibs quibbled by a metropolitan newspaper paragrapher, we find this solemn pronouncement:

"A small town is one where the newspaper prints a short story about the death of one of the leading drayman's work-horses."

Guilty, by heck, as charged. A small town, in other words, is a town with a measure of appreciation in its heart, and a jigger of affection in its soul; a place where a lifetime of faithful, unselfish service in behalf of the community is rewarded at least by a half-a-stick of type in the newspaper.

Old Dobbin plodding down the streets, day after day, hauling Junior's first little bed, and the piano on which Mary began to take lessons, and the "rough boxes" to the cemetery, and the new parlor rug Mrs. Neighbor saved up six months to buy, and the new arm-chair Dad got for Christmas, and the things we eat, and drink, and wear to the stores and other places, certainly isn't altogether outside of any legitimate definition of news when he shuffles off the equine coil and gallops out to spend eternity in the pasture. An All-Wise Creator must provide for good horses.

If downright usefulness is a measure of worth, Old Dobbin is of more importance than any number of bobbed bandits, machine gun hi-jackers, love pirates, flag-pole sitters, moll-buzzers, jack-rollers, thieving politicians and hoodlums whose antics, daily occupy top-column-next-to-leading-matter positions in the big-town papers. He's worth the hypophyseal apex and all the rest of the liggers of any love triangle that ever drew a page-one-banner line. He has nothing but his strength to give in the service of the community. But he gives it all. All of it.

Small town Certainly! Ashamed of it? Heck no! If it were not for the small towns, where would the nation get its presidents? Its captains of industry? Its great teachers, great preachers and great scientists? Its Lindberghs, its Edisons, its Mayes, its Mark Twains, its Melvin Stones, its John J. Raskobs, its Herbert Hoovers, and its Calvin Coolidges? Or, for that matter, its newspaper editorial paragraphers?

Some Old Dobbin hauled their tin-bound camel-back trunks to the depot and stood in the shade and watched while Number Nine went snuffling and coughing down the track, carrying them out of the small towns on their way to everlasting glory.

Old Dobbin will continue to rate an obituary paragraph as long as this nation is run by the small town folks, and it looks like that would be a long long time. —Escanaba Press.

## CLEAN UP!

There is no "sure sign" of spring, but spring should be a "sure sign" of the arrival of that time for the community to clean up. There is no superstition or prophesying about this clean-up sign.

When warm weather has come to stay (until cold weather returns in the autumn) every owner of property and tenant should instinctively feel it his duty to remove the evidences of winter's ravages and to aid and augment nature in her work of re-beautification.

Every spring clean-up program should include disposal of winter's accumulation of litter and decayed vegetation, repairing and repainting of buildings, and landscape gardening. Landscape gardening is no longer associated with large estates alone.

Cleanliness about the person or the home costs nothing. A community clean-up need involve no expense, except of a moderate amount of labor on the part of the householders. If there ever were excuses for uncleanness they were removed long ago.

What is the compensation of a community-wide clean-up campaign? It improves the general health of the community by removing deposits that are breeding places for disease germs. It is a better place in which to live than one that is unsanitary and unsightly. And the best community advertising is the appearance of being "cleaned-up, painted-up and planted-up."

The country may be going to the dogs like a lot of mental dyspeptics claim it is, but the fact remains that our churches gained more than eleven hundred thousand members in 1928.

TUNE IN—General Motors Family Party, every M., W., & F. 8 P. M. (Escanaba Local Time, WEA and 770 radio.)

## DEER KILLED BY WIRE FENCE MAKE YOUR DOLLARS WORK HARD AND GAIN INCREASE

The extent to which many kinds of conservation work depends on local and popular cooperation is well illustrated in the report of Conservation Officer, James K. Jamison, of Bergland.

"A two-mile stretch of highway M-28 near Bergland, is so situated as to constitute a veritable deer trap," says Jamison. "The highway is bordered on one side by a deer yard and on the other by a woven wire fence enclosing the right-of-way of the South Shore Railroad. Deer wander year after year out of the yard in early spring and are stamped by fast motor traffic and approximately \$1,000,000 worth of many have broken their necks on the wire fence. Last year a severe winter killed in this manner; most of them from \$5,000 with interest compounded of the State Highway Department, annually at 6% in a little over a year."

The equivalent of \$24 given by highway cautioning motorists to use Peter Muncie on May 6, 1926 to the care in approaching and passing this part of the road. This plan together with the vigilance of the local wardens on several foggy mornings has reduced the loss this year to a single deer."

## NEW ESSEX SPEEDSTER

The most recent addition to the 1929 line of the Hudson Motor Car Company is this flashy, ultra-stylish special "eighty" speedster mounted on an Essex the Challenger chassis. The body, custom built by Biddle and sharp, is low and suggestive of the fastest of new cars. It is equipped with a folding windshield and there is a surprisingly large rumble seat in the rear deck. A top and side curtains are included as part of the standard equipment.

The car comes in a variety of colors and all bright work is chromium plated as on all Greater Hudson and Essex the Challenger models.

On account of the extreme lightness of this type of body, and the low center of gravity found in this model, Hudson engineers have found it practicable to incorporate an overdrive, which makes it possible to combine safety with the tremendous speed which this car attains.

By means of special construction which makes it possible to lower the back of the seat to the floor, it is possible to convert the entire rear of the car into a very comfortable bed.

Our idea of the depth of oblivion getting forest fires from the former the last few weeks is that achieved price of 20 cents per hour to 30 cents, by the family that lives in the other does not go into effect for ninety half of the Coolidge duplex at Northampton, Mass.—Kansas City Star.

## GENERAL MOTORS

"A car for every purse and purpose"

CHEVROLET, 7 models \$525-\$725. A six in the price range of the four. Smooth, powerful 6-cylinder valve-in-head engine. Beautiful new Fisher Bodies. 7000 lb. light delivery chassis. Sedan delivery model, 112 ton chassis and 112 ton chassis with cab, both with four speeds forward.

PONTIAC, 2 models \$545-\$595. Now offers "7-15" increasing luxury at low cost. Larger 145 cu. in. engine. Larger Bodies by Fisher. New attractive colors and styling lines.

OLDSMOBILE, 3 models \$575-\$735. The Low Car at Low Price. New models offer further refinements, mechanically and in the 112 cu. in. engine at reduced prices. Also new credit plan.

OAKLAND, 8 models \$1145-\$1325. New Oakland All American. Six. Distinctive original appearance. Splendid performance. Luxurious appointments. Attractive colors. Bodies by Fisher.

VIKING, 3 models \$1395. General Motors' new "eight" at medium price. 35-degree V-type engine. Striking Bodies by Fisher. Unusual appointments. Three years' spare in development and test.

BUICK, 19 models \$1195-\$1445. The Silver Anniversary Buick. Three wheel-bases from 115 to 128 inches. Masterpiece bodies by Fisher. More powerful, vibrationless motor. Comfort and luxury in every mile.

LASALLE, 14 models \$1295-\$1875. Companion car to Cadillac. Continental lines. Distinctive appearance. 35-degree V-type 8-cylinder engine. Striking color combinations in beautiful bodies by Fisher.

CADILLAC, 25 models \$3295-\$7900. The Standard of the world. Famous efficient 8-cylinder 35-degree V-type engine. Luxurious bodies by Fisher and Fleetwood. Extensive range of color and upholstery combinations.

(All Prices F.O.B. Factory)

ALSO

FRIGIDAIRE Automatic Refrigerator. New silent models with cold-control device. Tuxton cabinets. Price and model range to suit every family.

DELCO-LIGHT Electric Plants — Q-Water Systems. Provide all electrical conveniences and labor-saving devices for the farm.

All General Motors products may be bought on the low-cost GMAC Time Payment Plan.

## Luxemburg Wins

The planting of rainbow trout in Cedar and Big Creeks and adjacent waters in Arenac County are now showing results. Conservation Officer, Gas A. Fuch reports that a number of legal size rainbows have been taken from these streams by the fishermen since May 1st. Fuch also reports the return of the "logcock" or piloted woodpecker—the largest woodpecker native to North America—and once common to all of the heavily timbered lands of Michigan to the waters of the state. He says that the spring he saw a pair of these "two-toed" birds in this district for the first time in twenty years. And also while planting trout in Mansfield Creek on May 23, he and his companions saw a woodcock and her young in the woods, an early date for these birds to have young out of the nest.

A Chicago woman who shot a burglar explains her bravery by stating that she thought it was her husband trying to sneak in through the kitchen window after a losing session at poker.

Miss Betty Hipp, a native of Oklahoma, Grand Duchess of Luxemburg, who was voted the prettiest girl at the beauty pageant in Galveston, Texas. A jury of artists, newspaper men and movie directors gave her 638 points as against 426 for her nearest rival.

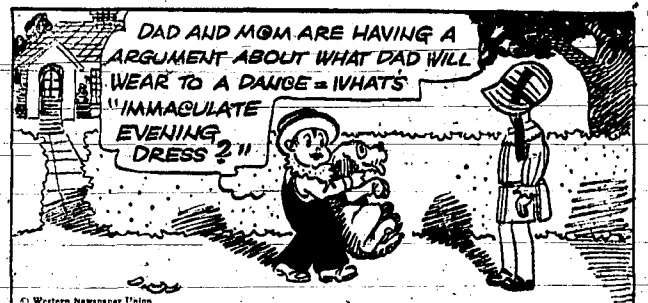

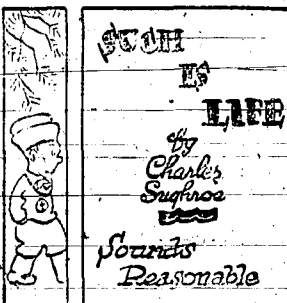

The equivalent of \$24 given by highway cautioning motorists to use Peter Muncie on May 6, 1926 to the care in approaching and passing this part of the road. This plan together with the vigilance of the local wardens on several foggy mornings has reduced the loss this year to a single deer."

## Uncle Sam Makes New Loan to Greece

Secretary of the Treasury Andrew W. Mellon (left) and the minister from Greece to the United States, Charalampos Simopoulos, signed the documents at the Treasury department which refunded the Greek debt of \$18,000,000. At the same time Uncle Sam granted Greece a new loan of \$12,107,000.

You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

# CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown... expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

## Objected to Knitting in London Co. Council

Knitting needles may not click an accompaniment to the debates in the London county council.

This unwritten law was laid down with emphasis by an irate masculine objector when Dame Beatrice Lyall, member for East Fulham, produced a pair during an all-night session and proceeded to click off interminable hours of debate with as many inches of warm woolen in sock.

No woman has yet had the hardihood to produce knitting needles in the house of commons, but in the past men M. P.'s have done so.

The most famous knitter in parliamentary annals was one of the Watson brothers, who were well-known to a former generation at Westminster. They were such big men that they were prominent figures wherever they appeared, and the spectacle of one of them, a man six feet tall and proportionately hefty, plying his knitting needles throughout debates in the house must have been incongruous. His fellow M. P.'s apparently thought nothing of it, however, for there are no chronicled objections in parliamentary archives.

## Black Ants Valuable to Worry Coco Louse

"Without Black Ants No Coco" reads a sign posted at the entrance of a great plantation in central Java. It does not go unheeded, for the natives hand in some four million nests of these little creatures every year and receive payment in return.

These black ants live only upon trees infested by the white coco louse. Neither the louse nor the ants injure the trees. The real enemy is a certain beetle, whose name is Helopeltis, which also attacks the tea plant. It has been found that when the black ants are present the Helopeltis fails to injure the trees. Apparently this sap-sucking pest is disturbed by the activity of the ants, for the latter do not attack the beetle.

This is why the black ants are protected. Food is provided for them by picking the white coco lice from the shells of the fruit, where they congregate, and placing them on the coco trees to attract the ants and disturb the beetles.

## POULTRY

### GREEN FEED FOR GOSLINGS HELPS

#### Tender Grass Should Fill Principal Part of Ration.

An important item in the care of young goslings is to keep them warm and quiet for the first few days and an equally important item in their feeding is to start them out on green feed, preferably tender grass.

For about two days after hatching goslings show little inclination to do anything but keep warm and quiet. They may come from under the hen and nibble at whatever they may see that is edible. They are most partial to grass and tender plants, but will take a little mash if it is offered and will dabble their bills in the water.

After that the goslings begin to take more interest in affairs and will feed industriously for short periods, always preferring short, tender grass and weeds for its diet, with mash and other substantial feed that may be offered in small amounts. A common mistake is to feed green food as an accessory to grain feed when it should form the principal part of the ration with mash and grain as an accessory to the green stuff.

Goslings may be brooded with hens or in small colony brooders or with geese. In the latter case they will get along very well if left to the old birds, the keeper supplying a soft feed of grain once or twice a day as the appetites of the goslings may dictate. This is true only when the range is ample and furnishes good grazing. The geese which are mated with one gander will usually raise their broods in one group, the gander being watchful over his whole family.

When the goslings are brooded by hens or brooders they require close attention while small. They should be confined for the first few days in pens which will keep them near the hen or brooder. These pens can be made of narrow wire netting or boards and placed on sod. When the goslings clean off the grass they should be moved.

### Egg-Eating Habit Among Hens Hard to Control

The egg-eating habit is usually caused by the hens getting hold of a soft-shelled egg that happens to be dropped on the ground somewhere in plain sight. They get to rolling it about, finally breaking it, and the trouble has started. The next thing is to get it stopped. Sometimes it may be stopped by making a slight break in the side of an egg, running a part of the white and then inserting a good dose of cayenne pepper, closing the hole with adhesive tape or court-plaster. Drop this out among the guilty ones and see what they do with it and how it affects them. Another way is to nest an egg to the boiling point, crack slightly and place out for them.

In case neither of these work, a plan that will be effective is to put a false bottom of burlap in your nest box just a few inches from the real bottom, tucking it around the sides, then cut a cross in the center of the burlap large enough for the eggs to drop through. They will go down out of sight and trouble. It may be that at the start of this dirty work you may be able to locate one leader, and taking her out to herself the trouble in the flock will be ended.

### Poultry Facts

Keep hens ridged of worms.

The air in a chicken house should be continually moving at a fairly slow rate.

The first three weeks of the life of a chick is recognized as one of essential importance.

Baby chicks will digest a crop full of mash in from two to two and a half hours and are then ready for another feed.

The breeding turkey should receive a good laying mash along with scratch grain.

The turkeys should not be fed straight alfalfa meal or alfalfa stems meal because it is too bulky to be handled by their digestive systems.

It is generally recognized by poultry disease specialists that chickens have remarkable resistance against most diseases, and the class of troubles commonly spoken of as colds and roup is no exception to this statement.

The first symptoms of colds among a flock are sneezing and loss of appetite and activity by those infected.

Liver troubles in hens are difficult to treat, as they are seldom discovered until the bird becomes sick and dies suddenly.

Hens don't need and can't eat such feeds as corn cobs and shucks. Save the corn-and-cob meal for the cows. Give the hens whole corn, or preferably cracked corn. They'll lay more eggs.

### Bladder Weakness

If Bladder Weakness, Getting Up Nights, Backache, Burning or Itching Sensation, leg or groin pains, make you feel old, tired, nervous, and worn out why not make the Cystex 48 Hour Test? Don't give up. Get Cystex today at Mac & Gidley's. Put it to a 48 hour test. Money back if it doesn't soon feel like new, full of pep, sleep well, with pains alleviated. Try Cystex today. Only 50c.

### An Arithmetic of 1649

In the Garcho library of the University of Texas, is the oldest arithmetic in America. Upon touching its vellum covers and back skin, thanks your country may go back to that proud but unenviable day when your own schooling arrived at the portal page of "Fractions." With awe one discerns that pupils of 1649 had to wade through seven chapters of mathematical quicksands. The pioneers evidently desired to obtain strength of mind in their children for it was a stern age. Another chapter was devoted to the formation of military companies in squares, hexagonal units and other strange geometrical forms. Otherwise the book shows pupils struggling with the same problems that perplex modern youngsters.

### Poet a Pleasant Companion

Matthew Green, an English poet who was born in 1641 and died in 1787, proved himself a witty and pleasant companion for his friends and his employers. While working in the customs house and wishing to supply with milk the cats which were kept there, Green wrote a successful petition to the mayor.

At another time when a water man insulted him and he was halting by calling out, "Quicker!" and a friend asked how his cat could be detected when he was wearing no clothes, Green replied, "By my swimming up stream."

In many of his writings his humor is apparent, especially in "Splice," a poem published posthumously.

### Loyal Fox Terrier

A delightful little story of the faithfulness of a fox terrier is told in a Budapest (Hungary) newspaper. The little dog was a great friend of a street flower seller. One day, he missed her from her place and moped. The next day she was still absent. He rushed into the restaurant where he belonged and made such a disturbance that the waiters set to work to discover what it was all about. They made inquiries about the flower seller, and learned that she had been run over. A collection for her was made in the restaurant as a tribute to the dog. Perfectly true, says the newspaper.

### Color of Planets

Venus, Jupiter and Mars are of different colors. Venus is a silvery white, Jupiter is yellowish and Mars is red. The true of planets represents their true colors, while the color of stars is caused by the temperatures of their surfaces. Observed through a telescope, Venus is seen to be covered with brilliant white clouds, while the clouds of Jupiter are soft, brown. Mars is not obscured by clouds, however, and through a telescope its surface can be observed. This shows wide expanses of what has been described as red desert, possibly a red sand or rock.

### Meowl

The Homely (one) I dread the thought of dying age. The Catty (one) Oh, well, you have no consolation, you have no good looks to lose. Cincinnati Enquirer.

### Cheboygan Transplants Trees

The Boosters Club of Cheboygan has just completed the transplanting of 525 trees in the new Olds Bay Shore Park. This is a municipal park and the Boosters Club, an organization of young men, took in charge the preparation of the grounds for local residents and visitors. The park will be available to tourists. The transplanted trees are sufficiently large to provide considerable shade.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVANCE OF 23 YEARS AGO.

Thursday, May 24, 1906

Saturday night's frost cooked a good many huckleberries, on the plains.

Mrs. A. L. Pond has been visiting her sister at Flint for the past week. A. L. Pond is growing very anxious for news from his brother who was in San Francisco at the time of the earthquake.

Cement walks are nearly completed across Block 20 on Peninsular Avenue and on the south side of the same block.

Wm. G. Woodfield's family said goodbye to their friends here this morning as they started for their new home in Calumet.

Mercury dropped to 24 degrees Saturday night, so that Sunday morning was decidedly frosty, enough to make the croakers croak.

Miss Myrtle May Winslow is visiting at the home of her parents, Mr. and Mrs. Walter Winslow, where she arrived May 17th.

Sine Peterson is visiting at the old home in Manistee.

Miss Laura London has returned from Saginaw to her home at Maple Forest.

A new ticket agent at Herrick's Friday, May 18, seven pounds "Lew's" weight now estimated at over a ton.

Mrs. A. J. Stillwell went to Mason Monday, to see her mother, who is said to be failing rapidly from the effects of the cancer which is eating out her life.

Warden Purchase caught a victim on the North Branch last Sunday with a number of short trout. He pleaded guilty to Justice Mahon, who imposed the usual fine and costs.

O. Palmer and wife expect to start tonight for the spring outing with the Eastern Michigan Press Club, across Lake Erie to Buffalo, N. Y., and home via Niagara Falls.

The new baseball grounds in this village are now practically completed. Surrounded by an eight foot fence, the diamond is pronounced superb, and the grandstand roomy, comfortable and safe. Our team is in fine condition and rare sport is expected for the season.

G. L. Alexander was in attendance at the Circuit Court in Gaylord, yesterday.

Scott L. Lander has bought a cozy cottage home of H. Petersen on Barnes addition.

Our high school baseball team played their first game of the season with Gaylord last Friday, and beat them nicely with a score of 19 to 3.

An alarm of fire Tuesday noon turned out the town. The fire was discovered in the Burton House barn on the bank of the river, and was shot to have caught from a passing train. It was quickly distinguished with but little damage.

The result of the Friday spelling contests at Frederic are about equally divided among the following students: Joe Stillwell, Eddie Bartlett, Able Patterson, and Eno Milnes. In the 6th grade class, Nettie Cameron, Iola

Milnes, Marie Long, and Claude Scott are the leaders.

Beaver Creek Items

Mr. and Mrs. Frank Fish of Owosso have been visiting their sister, Mrs. John Love the past week.

Genevieve Kile, the little five year old daughter of Frank Kile, has been dangerously sick with pneumonia but is now recovering.

Mr. and Mrs. Chas. Wilber have been visiting their parents, Mr. and Mrs. Fred Sholts, the past week.

Mrs. Geo. Belmore is now visiting her sister Mrs. Phoebe Poquette.

There was a box social at Frank Barber's Thursday evening, May 10, for the benefit of Rev. Peters. The boxes were filled and brought \$12.85. Some improvements have been made on the roads this spring.

Frederic Correspondence

We are sorry to lose from our midst the families of Frank Brady, Medese Charron, and Richard Bartlett.

Mr. Charron goes to Wolverine to engage in the meat business.

Mr. Brady takes charge of the M. C. R. R. yards at Mackinaw City.

Mr. Bartlett accompanies Mr. Brady as an assistant. We wish them success in their new fields of labor.

Mrs. Bliss and son Rex are visiting at her brother's, C. Craven. Mrs. Bliss came here from Flint for her health.

### AUTO WAS CURIOSITY

A new kind of machine was seen recently in Atoyac, Mexico. Native of the Pacific Coast town viewed this modern invention with a great deal of curiosity. It was an automobile.

General Rafael Sanchez, commander of the State of Guerrero, drove a Model A Ford Phaeton across country from Acapulco to Atoyac, over land so rough that none had made such a journey before. He sent this wire to R. Z. Martinez, Ford dealer at Iguala: "For your pleasure please be informed that the Ford car I purchased from you is the first automobile that has ever reached this town, over a difficult country where there are no roads at all and the land is strewn with rocks and soft sand. Motor in perfect condition after terrible test. Small native towns along path regarded first automobile with positive wonder."

### Woman Eats Only Baby Food 3 Years

"For 3 years I ate only baby food, everything else formed gas. Now, thanks to Adlerika, I eat everything and enjoy life."—Mrs. M. Gunn.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system.

Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.

—Mac & Gidley, druggists.

## Ignorance and Attractiveness

By THOMAS ARKLE CLARK  
Dean of Men, University of Illinois.

"Where people wish to attract," an eighteenth century writer, and a woman, says, "they should always be ignorant."

It will only add injustice to man that thought, to the larger and more trifling part of the sex. Imbecility in woman is a great enhancement of her personal charms. There is a portion of the vanity of others, which a sensible person would always wish to avoid. A woman, especially, if she has the misfortune of knowing anything, should conceal it as well as she can. It will only add injustice to man that thought, to the larger and more trifling part of the sex. Imbecility in woman is a great enhancement of her personal charms. There is a portion of the vanity of others, which a sensible person would always wish to avoid. A woman, especially, if she has the misfortune of knowing anything, should conceal it as well as she can. # Its style is the first indication of its big car qualities

One look at the New Pontiac Big Six and you know that here is something different in low-priced motor cars. It has the proportions, the rakish lines and the style of a fine big automobile. And this is only the first indication of its many splendid big car qualities with which it is endowed.

Prices \$745 to \$995, f. o. b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and Lowley shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

## THE NEW PONTIAC BIG SIX '745 AND UP

### THE WEEK IN WASHINGTON

(By Congressman Roy O. Woodruff)

The Fordney-McCumber Tariff Bill, which became the law in 1922, carried a tariff rate of \$7.75 per hundred pounds on white, or navy beans. The rate carried on this most important farm product under the Democratic Tariff Law of 1913 was twenty-five cents per bushel.

The Representative of the Michigan Bean Growers' Association, Mr. J. M. McBride of Burton, Michigan, appeared before the Ways and Means Committee during its general hearings on the bill now before the House and asked an increase in the tariff on beans from \$1.75 per hundred to \$2.75 per hundred pounds. This figure was arrived at after extensive investigations of the cost of producing beans in this country as compared to the cost of producing this crop in other countries, and the tariff asked was one which in the judgment of the bean producers would measure the difference in cost of production here and in foreign countries.

The Committee made a recommendation of only \$2.50 per hundred pounds in the bill reported to the House. On Saturday, the 18th, I appeared before the Republican members of the Ways and Means Committee who are now hearing the different members of Congress relative to the tariff schedules, with a view to correcting any mistakes they may have made in arriving at the figures reported in the bill. It seemed important to me that I lay before them certain facts in connection with the importation of beans during the past year.

Within the past few days I have secured from the Department of Commerce complete reports on the importation of beans and certain other products during the past year, and was amazed to find that there were more white beans shipped into this country the first six months of 1928 than there had been in any one year in the country's history.

Figures from the Department show that in 1928 Canada increased her shipments over 1927 from 19,466 bushels to 166,076 bushels; Mexico increased hers from 26,348 in 1927 to 120,219 bushels; the Netherlands from 38,300 to 55,483 bushels; Japan from 460,190 to 577,763 bushels; Chili from 81,583 to 308,744 bushels; Belgium from 15,398 to 294,967 bushels; Hungary from 22,090 to 43,031 bushels; and Germany increased her shipments from 80,168 bushels in 1927 to 194,183 bushels in 1928. This indicates very clearly that unless a more substantial increase is granted in the tariff on this product, the American farmer will eventually be compelled to cease the growing of the crop. I supported Mr. McBride in his demand for a duty of \$2.75

per hundred pounds.

The white bean is one article of food which can be grown here in sufficient quantities to meet our domestic demands. In this country we raise the very best beans in quality that are raised anywhere in the world. Michigan raises the best bean that is raised anywhere in the United States, and it is interesting to note in a report issued from the Department of Agriculture that of the 16,850,000 bushels of beans which were raised in this country in 1928, Michigan alone raised 5,918,000 bushels.

Another thing not generally known regarding food prices and food value is the fact that with one American dollar we can buy more food value by buying the white Michigan bean than we can by expending that money for anything else other than beet sugar. The food value incorporated in these two products is cheaper to the consuming public than in any other food product utilized by the people of the United States.

While before the members of the Ways and Means Committee I also urged upon them the importance of increasing the tariff on potatoes. The Fordney-McCumber tariff law provided a tariff of 60c per hundred pounds on this product, and the bill reported from the Committee and now before the House of Representatives carries no increase over this figure. I stressed the fact that in approximately three years out of five, the present tariff on potatoes is not effective, due to over-production. With approximately two years out of five when conditions are such that the potato raisers can obtain a higher price for their crop, the tariff simply permits them to recoup some of the losses suffered in the other three years. I asked the members of the Committee to increase the present rate of 60c per hundred pounds to 75c per hundred pounds.

As I have stated before, it seems to me that while we are writing a tariff bill we should so arrange the agricultural schedules as to give the American farmer as much of the American market as he can reasonably supply. This will promote the production of many crops which have heretofore been neglected by farmers of some sections of our country and will tend to reduce the production of our large exportable surpluses on other crops. This will be helpful in solving the farm problem.

#### LOCATE FIRES EARLY

Forest fires may burn in Michigan, as elsewhere, when it is beyond human agency to stop them; but under Michigan's system of observation fire towers, they never go unnoticed from the moment the smoke climbs above the tree tops. In April a fire in Manistee County was sighted and cross shots were called for from eight different towers within two hours after the fire started. The tower closest to the fire was five miles away, the farthest was forty-two miles—air-line in his demand for a duty of \$2.75

#### SCHOOL NOTES

(Continued from first page)  
examinations were conducted here last Thursday and Friday. This was a big day for a lot of the students from the rural schools.

The American History class is beginning the study of the World War. Miss Estee had five history classes and every one of them is studying some stage of the war. Evidently she will get all she wants of it. Most of us enjoy the study of this war because it was the most recent one and we can all remember something of it. The only thing that is hard about it is the pronouncing of the foreign names. We all make a try at it but for some of us it doesn't go so well.

It looks as if our baseball team is going to be a winning one. They have won every game so far. Let's hope that they continue the good work. Everyone of the High School students should try to support the team as much as possible.

Miss Lewis' second hour Chemistry class had a test Monday morning over the previous week's work. She had promised it to us Friday but so many of the students were absent that it was postponed.

Laura Sammons has returned to school after a week's absence, spent in Pontiac, Flint and Detroit.

The Juniors are happy because they have at last settled the question concerning their rings. They have all agreed on one, and they will be sent for as soon as possible.

Miss Richard read a very interesting story to her Caesar class one day last week. It was certainly a treat after studying and translating.

The Geometry class has been on one proposition for several days. It has been picked to pieces, put back together again and we are still working on it. It proves to be very interesting. We re-wrote a statement of the proposition. There were several real good ones handed in but with most there was something wrong.

We are studying William Thackeray in English Literature now, and find him very interesting. More people are waking up to the fact that they "must" study before coming to class now, as we are apt to have a written quiz over the day's lesson.

Some of the classrooms have been redecorated and it certainly is a big improvement. The rooms are much lighter now and consequently we can see better to work especially on dark days.

We have been studying Dickens and Thackeray in English Literature. Their works are an interesting contrast.

The members of the public speaking class have finished their debates and are learning poems which are to be recited the latter part of this week.

The students are feeling quite alert over their recent victories in baseball, having won every game so far this spring.

The Seniors are busy getting ready for the Senior play that will be given in the High School auditorium Friday, May 24th.

A number of the High School students attended the J-Hop given at Gaylord last Friday, May 17.

We are wondering what would happen if.

Edith Bidvia forgot her gum.  
Miss Lewis forgot to be good natured.  
Margaret Warren grew up.  
Alice Mahneke didn't whisper.  
Anna Hanson failed to get a scold.

Mr. Hill lost his dramatic art.  
Ellen Speck forgot to study.  
Lewis Engle forgot his good manners.  
Elmer Fenton forgot his slams.  
Mrs. Bogue forgot to assign a lesson.

Grace Parker forgot to be slow.  
Mr. Cushman forgot to issue permits.  
Eleanor Gorman didn't get hurt in lab.  
Helen Woodburn ever missed her Caesar.

Miss Richard forgot to say "Let's have the talking stopped."  
Miss Dorr failed to decipher shorthand notes.  
Annabelle Harris forgot to borrow a compact.

James Post failed to slam Miss Estee and Miss Lewis.  
Bill Garner forgot some of his past experiences.

#### BUILDING OUT-OF-TOWN TRADE FOR MERCHANTS

"Burt, Mrs. Kellogg was in the store today. She lives fifteen miles out of town, but she comes in regularly in her car to buy here. She told me she follows the ads in the weekly religiously. And she is just one of many that drive in to town to shop as a result of reading the ads."

"Yes, the ads certainly help to build out-of-town trade. The local ads are attractive, too. George Stone buys an up-to-date cut and ad service that enables space buyers in the local paper to show well-drawn illustrations of their goods, just as the merchants in the largest cities do."

"I asked Mrs. Kellogg why she happened to take the paper so far from town. She said her family couldn't do without it."

"Well, the farmers in this section are growing prosperous. They have more money to spend for clothes, furniture, autos, radios and many other things."

"And in the local paper they can find ads that tell them where to spend their money for necessities and luxuries with greater savings to themselves and benefit to the merchants and to local business—right here in town."

### TEACH CARE FOR TOURISTS

MICHIGAN STATE COLLEGE WOMAN SPECIALIST AVAILABLE THROUGH DEVELOPMENT BUREAU

(By E. M. T. Service)

Arrangements have been made between the North Eastern Michigan Development Bureau and the Extension Service of Michigan State College whereby Miss Muriel Dundas, nutrition specialist, will spend the summer months in counties of North-eastern Michigan aiding women of the district in solutions of their household problems through courses in home economics. One of the important services which will be rendered will be those homes which accommodate summer visitors.

Thousands of tourists who come to North Eastern Michigan seek accommodations at private homes. In recent years there has been an increase in the number of homes catering to these visitors. Miss Dundas will be available to these places with suggestions and information on equipment, the preparation and serving of food and other auxiliary problems.

Miss Dundas' office will be with the North Eastern Michigan Development Bureau in their Log Office, and individuals, groups and communities who desire her services should address her there.

An ever-increasing number of Michigan women are finding solutions for their household problems through the courses in home economics offered by the Extension Service of Michigan State College.

How to select clothing for the family when the budget is small, how to plan the meals for the needs of each member of the family, and most of all how to avoid that tired-out feeling that comes at this time of year from a diet too low in minerals and vitamins. These are only a few of the questions that are occurring in every home.

North Eastern Michigan has perhaps had less of this home service from the college than other sections of the state due to its scattered population. Hence women are welcoming the news that assistance is now available to this district.

Community meetings will be held to explain the courses available in foods and nutrition, clothing, home management and home furnishing. The general plan which has been employed throughout the state where home economics courses are being given is as follows: Ten to twenty community groups in a county elect two representatives each who are called project leaders. These women meet with a specialist from the college once each month to receive the instructions and materials necessary for the teaching of the lessons in their own communities. This enables a much larger number of persons to receive the training with a minimum amount of time and effort. Forty-three counties in lower Michigan and ten in the upper peninsula are now enrolled with the specialist in the home economics extension courses.

The state program in home economics is under the direction of Dr. Louise H. Campbell, state home demonstration leader, who with her staff organizes and carries to the remote districts of the state the principles of better homemaking.

Summer brings to this section a growing number of families who spend their vacations in their automobiles. They desire food and lodging at moderate rates. Many homes are asked to accommodate these summer visitors. These homes are thus confronted with a problem, which may bring to them added income with small outlay. The problem of how to equip their rooms at a low cost, what to serve these guests whose food habits may differ widely from their own, and how to plan so that the balance comes on the right side of the ledger, these and other problems will be discussed individually and with groups by Miss Dundas. Demonstrations of food, discussion of health problems, of preparation, etc., will be discussed by the specialists in community meetings where the women are interested in beginning a home economics program.

Another feature of the program is the convenience truck which will visit the district during June, July and August. Two days will be spent in each county at centrally located places.

#### LOVELLS NEWS

Gideon Kibbler is driving a new Ford sedan.

B. W. DeGuichard has returned to Flint after spending a few days at the Nash Kamp.

Mr. and Mrs. Jay Buttler of Lansing are visiting at the home of Mrs. Buttler's parents, Mr. and Mrs. A. R. Caid.

W. B. Mershon has returned to his home in Saginaw after staying at his cottage for three weeks.

Mr. and Mrs. Percy Budd visited at the home of their daughter, Mrs. Kenneth Clise of Grayling.

John Herick was a caller at West Branch.

Charles Feldhauser went to Petoskey Saturday.

Miss Eva Smith of Maple Forest spent the week-end at the home of Joseph Vance.

Miss Myrtle Vance gave her pupils a picnic on the last day of school.

The Hawaiian Islands are said to have the same temperature all the year around. But the Hawaiians are a clever people, and have found other ways to start a conversation—Detroit News.

#### VISIT AUTO ROW FOR A KICK

By Erwin Greer  
(President Greer College, Chicago, Ill.)

There is as much human interest in "Automobile Row" as there is in, say, one of the police courts, although, of course, the element of human interest in neither spring from the same source.

There, you see the millionaire giving an order for three cars, each costing more than \$5,000, as casually as he would order a soft drink at a soda fountain. The check that he writes out in payment means absolutely nothing to him, and the cars do not either. He would just as soon ride on the street car, but the wife and the family must keep up appearances.

In the next place you see a newly married couple with just a few dollars. They want a machine as cheap as possible, because she will have to stop work before long, while she goes to the hospital to have her baby, and he wants her to have a car so he can drive her around nights and Sundays, while she has to stay at home after that.

In the next, there will be the college boy, who wants a car to impress his fraternity brothers—a snappy bright roadster for him—and his parents must pay for it. In the next sales lot there will be a bootlegger who wants a powerful, fast car with a big seating capacity, to replace the car that the federal agents seized last week.

No matter what variety or vintage of automobile you are driving, and attempting to pay for, a stroll through "Automobile Row" will make you disatisfied. You are sure to see some glowing new model, with bright dodads and disappearing seats and snap-on fenders and rakish tire carriers that will make you start figuring with some sale-man on your year after next pay checks.

Brave is the man, and lacking in ordinary ambition, who can walk through even a small section of "Automobile Row" without stopping in at least two or three salesrooms to inquire after the price and terms on a certain beautiful machine that has charmed his eyes and brain.

#### CHANGE NAMES OF LAKES

During the past year considerable progress has been made in getting rid of undesirable, inappropriate, or duplicated lake names. There are scores of "Mud" lakes, numerous "Round," "Crooked," "Clear," and "Long" lakes, several "Grass" lakes, etc. Barry County has five "Long" lakes and Ogemaw County three "Crystal" lakes. These cause great confusion and in some cases tend to hold up development of resort and recreation projects.

A committee composed of Dr. G. N. Fuller, Secretary of the historical commission, R. A. Smith, State Geologist, and L. R. Schoenmann of the land economic survey act as a clearing house between the local communities and the United States geographic board at Washington. The committee makes suggestions for names and recommends changes in lake and stream names only after the local historical societies and authorities have investigated and approved the proposed change, giving their reasons. Special effort is made to retain local historical and Indian names.

Numerous "Mud" lakes were eliminated in Menominee in favor of more appropriate or desirable names. Grass Lake at Bellaire, Antrim County, has been changed to Lake Bellaire by approval of the U. S. Geographic Board. Similarly "Long" lake in Genoa Township, Livingston county, has been changed to Lake Chemung. Changes in certain stream names are now under consideration.

#### R. M. T. LITERATURE DISTRIBUTED AT CHICAGO

Folders, telling of the recreational appeals of East Michigan in picture and text, are being distributed in Chicago by 17 hotels in the downtown section, eight hotels on the north side, 11 hotels on the south side, 12 banks, 14 ticket offices and 25 information bureaus, located at the newspaper offices, department stores, express companies, etc.

The wet have been yelling a good deal about "life for a pint," and it probably is true that a good many lives have been snuffed out in the last few years because people have consumed even less than a pint of the stuff the bootlegger hands out—Detroit Free Press.

#### TO THE OWNER OR OWNERS OF ANY AND ALL INTERESTS IN OR LIENS UPON THE LANDS HEREIN DESCRIBED.

Take notice that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof at any time within six months after return of service of this notice upon payment to the undersigned or to the Register in Chancery of the County in which the land lies, of all sums paid upon such purchase, together with one hundred per centum additional thereto, and the fees of the Sheriff for the service, or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description, without other additional cost of charges. If payment is not made within the time the undersigned will institute proceedings for possession of the land.

Description of Land  
STATE OF MICHIGAN  
County of Crawford.

The northeast quarter of the north-west quarter of Sec. 16, Town 28N, Range 13W. Amount paid \$4.97 tax for year 1922. \$3.61 tax for year 1923.

Amount necessary to redeem, plus the fees of the Sheriff.

Sunrise Club Incorporated, place of business Grayling, Michigan.

To William Barratt, last grantee in the regular chain title of such lands or of any interest therein as appearing by the records in the office of the Register of Deeds of said County.

Walmer Jorgenson and Orlando F. Barnes, grantees under the tax deeds issued by the Auditor General for the latest year's taxes appearing of record in said registry of deeds.

John M. Livingston, grantee under State Tax Homestead deed—5-23-4

20,000 SEE SPORTSMEN'S SHOW

The exhibits of game fish, game and predatory animals, and other conservation subjects at the Chicago Sportsman Show were seen by over 20,000 people. These exhibits and those of the Resort and Tourist Associations contributed largely toward selling Michigan to the summer vacationist from Illinois and adjoining States.

The Chicago showing was the fourth exhibit made by the Conservation Department this year; others included Detroit, Grand Rapids, and a previous one in Chicago.

A Michigan minister says golf is next to religion, and on Sundays it seems to run a little ahead of it.—Springfield Ohio, Sun.

#### Works Hard, Dances, Gains 3 Lbs a Week

"I work hard, dance and have gained 3 pounds a week since taking Vinol. My nervousness is almost all gone."—Mrs. F. Lang.  
Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives a new pep, sound sleep and a big appetite. The very first bottle often adds several pounds weight to thin children or adults. Tastes delicious. Mac & Gidley, Druggists.

#### MAGAZINES GIVE MICHIGAN PUBLICITY

In the June issue of Forest & Stream in an article entitled "Lead Me To It," by James Clyde Gilbert, Osego County is pictured verbally and pictorially in the month of June. The article mentions Gaylord and streams and lakes in Osego County. Sports Afield, a monthly outdoor publication, contains an interesting article in its May issue on Michigan.

#### AUCTION SALE

Annual Dean will sell at public auction his farm machinery and household goods at his farm in Beaver Creek township on Wednesday, May 29th, beginning at 12 o'clock noon.—S. G. Nichol of Gaylord is the auctioneer.

Read your home paper. Subscribe for the Avalanche.

DRUGGIST

## Don't Let Your Community Make the Same Mistake

Within recent years many communities have made the mistake of paying their roads and streets at what they considered a "bargain price." The taxpayers thought they would save thousands of dollars. In many instances the maintenance has not only wiped out the hoped-for savings, but has exceeded original cost. And in many cases also it has been necessary to build entirely new pavements—of permanent construction.

There are communities, however, which know the cheapest is not always the best. Many of these also built roads and streets several years ago. And they built for permanence with concrete.

These concrete pavements, built in accordance with approved standards of construction, are in as good condition today as when they were built.

Which of these communities will yours be?

Send today for our free illustrated booklet—  
"Concrete Streets for Your Town"
